Press Release

10-24-2016

No Shave November Initiative

Chief Anthony Marino would like to announce a No-Shave initiative this November. During this time, the department will be temporarily waiving part of the grooming policy which will allow participating Officers and civilian employees to grow facial hair. This initiative is to create awareness for all types of cancer. Our department's participation will be to raise money for 6 year old Joey Povio who is battling retinoblastoma- a rare form of cancer which develops in the retina of the eye. The officers participating hope that their outward show of support for Joey will encourage others to donate to this worthy cause. The department hopes to raise as much money as we can to help this family pay for travel, medical and other expenses during Joey's treatment.

The department has set up a Go Fund Me account to allow people to donate to the cause. The link to this account can be found at the Cape May Police Department Facebook page as well as the facebook page of the City of Cape May.
