The West Cape May Farmers Market supports and fosters local agriculture by providing a direct market for producers, providing consumers an opportunity to purchase locally produced agricultural goods, and educating the community about the importance of local agriculture.

II. Statement of Purpose

- To give agricultural producers of South Jersey alternative marketing opportunities that help them to sustain their local, family businesses;
- To serve as a business incubator by giving producers an opportunity to test and refine their products and marketing skills with minimal investment;
- To build community by bringing farmers and consumers together to deal directly with each other, allowing them to trust, know, and learn from one another;
- To improve the variety, freshness, taste, and nutritional value of produce available in the South Jersey area;
- To provide an educational forum for consumers to learn the uses and benefits of quality, locally grown, and prepared food products;
- To support a clean environment through good agricultural practices, which preserves open space, water, soil, and biodiversity, and reduces fossil fuel use by minimizing the distance that food travels;
- To contribute to the local economy by keeping food dollars in the community;
- To enhance the quality of life in the greater West Cape May area by providing a community activity that fosters social gathering and interaction.
- To ensure food security – by supporting local farms today, there will be farms in the community tomorrow and future generations will have access to nourishing, flavorful, and abundant food.
- To enable the Borough of West Cape May Shade Tree and Environmental Commissions to generate revenue to sustain their goals and missions without utilizing tax generated funding sources.
